4. From 2 to 11 February 1955, the AAA camp southeast of Apetlon was unoccupied.
5. On 11 February 1955, 2 lieutenant colonels wearing red-bordered black epaulets with tank insignia and another 4 officers also wearing red-bordered black epaulets with tank insignia were observed in an Apetlon restaurant. The latter four officers wished to pay in Hungarian currency as they were short of Austrian shillings. Other Soviet officers tried to talk to local residents in the restaurant in broken Hungarian.
6. On 12 February 1955, visitors from Wallern who came to Apetlon said that, during recent days, AAA shipments which came from the direction of Hungary were directed to Wallern via Pamhagen (P 48/X 84). According to residents of the Meierhof estate, a mess hall and a butcher's shop were established and 2 baker's ovens were under construction in the area of the estate.

[redacted] Comment. The present report confirms that, except for short interruptions, continuous use of the Apetlon AAA range was resumed in late January 1955. The troops whose arrival was announced in a previous report have arrived at scheduled times.

25X1

It is believed that they are Soviet AAA units which came from Hungary. Also, most of the motor-vehicle numbers which are mentioned in the present report probably belong to Soviet troops who are located in Hungary.
